BUZZI BOOTH

MICRO-ARCHITECTURE FOR MAXI SPACES!

Nowadays we work in open-plan offices, and we try to create a loft feeling at home as well. But this means places where we can make a quick phone call in peace or work by ourselves on our laptops have become rare. Designer Alain Gilles' solution is the BuzziBooth: a felty 'phone box' made of soundinsulating felt that dampens outside sounds. Now you can have a moment alone even in the noisiest of surroundings.

WILKHAHN

FOR TEAMWORKERS!

Desk-sharing, flexible teamwork and short-term integration of freelancers into project groups have become an integral part of our daily work routine. It has to be reflected in the working environment too. This table that can accommodate both individual persons or a group of eight. That can be simply linked with other tables to form a table configuration, and can be folded up in no time at all and rolled to the side of the room. The Confair folding table provides you with optimal conditions for free personal development.
